

AQA GCSE 8035

PAPER 1 (35%): Physical 1hr 30mins

PAPER 2 (35%): Human 1hr 30mins

PAPER 3 (30%): Geographical Applications 1hr 15mins

Mock Exams

Pre-release Paper 3: Enquiry into a current issue

Urban Issues: HIC Cities

Revision

Issue Evaluation

Sustainable urban living and transportation

Refine; Revisit, Review

Mock Exams

YEAR 11

Coasts

Ecosystems: Rainforests & Hot Deserts

The UK Economy

Coastal management: hard and soft engineering: The Holderness Coast

Food chains and webs; Rainforest biome: characteristics, adaptations, human impact and management.

Reducing inequality within the UK; The UK's links to the wider world

Coastal processes; landforms of erosion and deposition; fieldwork enquiry: Hornsea

Hydrology; River processes; landforms; fieldwork enquiry

Measuring development; Population pyramids

Impact of a changing economy on rural and urban areas; The North-South divide

Hazards

Resource Management: Energy

Rivers

YEAR 10

Development

Global energy supply and demand; sustainable energy in LICs

Causes of flooding; analysing hydrographs; river management: hard and soft engineering

Causes of uneven development

Conflict over natural resources

Focus on Africa: continent of contrasts

The 3Ps: Comparing eruptions

Living with volcanoes

The future of food in the UK; technology; waste; farming methods; globalisation

Place Detective

Development Dilemmas

YEAR 9

Shake, Rattle & Roll

Survival Academy

The New India: Economic Rise; Cultural Shift

Environments under threat: Rainforests & Oceans

Plate tectonics; Earthquake and Volcano distribution

Conflict over water: The Middle East

Water supply, demand and management

Geological Time: Weathering, rocks and soils

Coasts: processes & landforms

Cold climates: characteristics, adaptations, opportunities and challenges: Svalbard

International crime: drug trafficking; illegal migration: Afghanistan; Mexico-USA

Our Shrinking World

Geography Rocks

YEAR 8

Be Cool

Blues & Twos

Impact of urbanisation on India

Hydrology: processes & landforms

UK glacial environments: processes and landforms

Tourism in the Lake District National Park

Crime perception and environmental analysis; Designing out crime

UK extreme weather events

The built environment; Sense of place, identity

Reading OS Maps; Grid references; Topography; Atlases

Blame it on the weather man

Settle Down

YEAR 7

Tuxford Academy
Excellence through Teamwork

UK Climate characteristics; Weather systems: low and high pressure; measuring the weather enquiry

Discovering places at a range of scales from local to global

Physical and Human Features; Rural and Urban Spaces; Types of settlement

Nottingham: opportunities, challenges, urban change and regeneration; fieldwork enquiry.

Improving the lives of the urban poor: The Favela Bairro Project

Rio de Janeiro: opportunities, challenges, urban change and regeneration

Urbanisation; rural-urban migration; natural increase; megacities

Climate Change: physical and human causes; mitigation vs adaptation strategies

UK extreme weather; Tropical Storms; causes, effects, responses

Earthquakes: causes, effects and responses

The power of Russia: geopolitics

Changing China: International trade; sustainable cities

The New India: Economic Rise; Cultural Shift

Improving development in LICs through fair trade agreements and providing aid

Measuring development: HICs; NEEs and LICs

Population distribution and density of the UK and World

Climate Change: causes and effects

Urban Issues: NEE/LIC Cities
