This timetable is a working document and could change; please see the reasons below for this. When a subject begins their sessions, a new updated version will be sent out.

\*Targeted intervention sessions. Some subjects select specific students for intervention. This information has been sent out by Faculties on WEDUC. If your child is unsure whether they should attend, they should ask their classroom teacher.

- Due to staff meetings and other commitments, sometimes the day of revision for that subject could change. It is important that your child asks their subject teacher weekly to ensure they know the day of revision.
- Some subjects will be starting revision closer to the time of tests/assessments.
