

AQA GCSE 8035

PAPER 1 (35%): Physical 1hr 30mins

PAPER 2 (35%): Human 1hr 30mins

PAPER 3 (30%): Geographical Applications 1hr 30mins

Mock Exams

Nottingham: opportunities, challenges, urban change and regeneration; fieldwork enquiry.

Urban Issues: HIC Cities

Revision

Issue Evaluation

Sustainable urban living and transportation

Global energy supply and demand; sustainable energy in LICs

Coastal management: hard and soft engineering: The Holderness Coast

Mock Exams

Hot Desert biome: characteristics, adaptations human opportunities and challenges.

Food chains and webs; Rainforest biome: characteristics, adaptations, human impact and management.

Impact of a changing economy on rural and urban areas; The North-South divide

The UK Economy

The UK's economic structure

Social, economic and environmental impacts of development

Reducing inequality within the UK; The UK's links to the wider world

Coastal processes; landforms of erosion and deposition; fieldwork enquiry: Hornsea

Food, Water and Energy Issues in the UK: Supply, demand and solutions

Urbanisation; rural-urban migration; natural increase; megacities

Climate Change: physical and human causes; mitigation vs adaptation strategies

Hydrology: River processes; landforms; fieldwork enquiry

Measuring development; Population pyramids

The physical, human and economic state of Nigeria

NEE: Nigeria

YEAR 10

Development

Causes of uneven development

Strategies to reduce the development gap

Causes of flooding; analysing hydrographs; river management: hard and soft engineering

Changing China: trade; sustainable cities

Russia: geopolitics

The 3Ps: Comparing eruptions

Living with volcanoes

The future of food in the UK; technology; waste; farming methods; globalisation

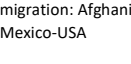

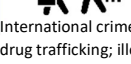

Food supply, demand, security and issues

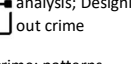

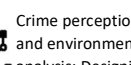

Water supply, demand and management

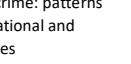

International crime: drug trafficking; illegal migration: Afghanistan; Mexico-USA

Crime perception and environmental analysis; Designing out crime

Mapping crime: patterns at local, national and global scales

YEAR 9

Shake, Rattle & Roll

Plate tectonics; Earthquake and Volcano distribution

Conflict over water: The Middle East

Survival Academy

Asia Ventura: Place Detective

The New India: Economic Rise; Cultural Shift

Population distribution & density of the UK and World

Measuring development: HICs; NEEs & LICs

YEAR 8

Be Cool

Cold climates: characteristics, adaptations, opportunities and challenges: Svalbard

Tourism in the Lake District National Park

Reading OS Maps; Grid references; Topography; Atlases

Our Shrinking World

Improving development in LICs through fair trade agreements and providing aid

UK extreme weather events

The built environment; Sense of place, identity

Discovering places at a range of scales from local to global

Physical and Human Features; Rural and Urban Spaces; Types of settlement

Geography Rocks

Geological Time: Weathering, rocks and soils

Climate Change: causes and effects

Tropical Storms: causes, effects and responses

Blame it on the weather man

UK Climate characteristics; Weather systems: low and high pressure; measuring the weather enquiry

Tuxford Academy
Excellence through Teamwork
