

Dear Parent/Carer

Thank you to all parents and carers who recently shared feedback regarding the structure of the school day. We greatly value your views and appreciate the comments received. Alongside many positive responses about improvements already introduced, particularly form time at the start of the day, several common themes emerged from the consultation.

Following this feedback, we are proposing some adjustments to the school day from September 2026. These changes are intended to support student wellbeing, reduce pressure during the middle of the day, and create a calmer, more balanced structure that supports learning throughout the day.

To share your views on the proposed changes, please complete this short consultation form: [Proposed change to the school day - parent/carers consultation – Fill out form](#)

Key themes from parent feedback included:

- Positive views on morning form time and the calm, purposeful start it provides for students.
- Concerns that current break and lunchtime arrangements can feel rushed for students.
- Support for reviewing lunchtime arrangements to improve access to food, social time, and readiness for afternoon learning.
- Recognition that a more balanced structure could positively support wellbeing, behaviour, and engagement in lessons.

Overall, there is strong agreement that refining the structure of the school day could have a positive impact on students' wellbeing, learning, behaviour, and overall school experience.

## Proposed School Day from September 2026

Time	All years
8:40 - 9:00	CCT
9:05 - 9:55	P1
10:00 - 10:50	P2
10:50 - 11:10	Break
11:10 - 12:00	P3
12:05 - 12:55	P4
12.55 - 1:40	Lunch
1:40 - 2:30	P5
2:35 - 3.25	P6

Thank you again for your continued support and for taking the time to share your feedback as we continue working to provide the best possible experience for all students. The consultation will close on 7 June 2026; you can also contact us via email at [parents@tuxford-ac.org.uk](mailto:parents@tuxford-ac.org.uk)

Kind regards

Tuxford Academy
